

CRAIG R. HANNAH

65 Pine Glen Road, Simsbury, Connecticut 06070

Phone: (860) 651-4150 E-mail: developer@channah.com Portfolio: channah.com

QUALIFICATIONS

- Sun certified (SCJP, SCJD, SCWCD) in Java software development
- Over 20 years experience in all aspects of software development
- Innovative design skills
- Ability to assimilate new technologies rapidly

EXPERIENCE BY FUNCTION

J2EE and Servlets

- Developed prize-winning master's thesis project. Application uses software patterns extensively and makes use of technologies such as Servlets, JSP, custom tags, XML, Swing, Java Web Start, filters, CSS and JDBC.
- Developed several Ajax and DHTML demonstration projects.
- Developed EJB (SSB and CMP) demonstration site accessed via Servlet/JSP application and via Web Service using Apache's Axis.

Web Site Development

- Knowledgeable in issues related to the structure, presentation and behavior layers of web sites.
- Created channah.com, a portfolio site.
- Created and maintained several community related web sites.

Database Development

- Created triggers and stored procedures to ensure relational integrity and encapsulate business logic in extant database
- Designed and developed relational database capturing all the subtleties of a reinsurance line of business.

Distributed Development

- Designed and developed Java client server application to earn Sun's Java developer certification.
- Designed, modeled, developed and supported several PowerBuilder and SQL Server Client Server applications used by 100+ customers.
- Built a corporate directory system used by 1000+ customers. Mainframe DB2 system fed customizable extracts which indexed and converted data for automatic delivery to workstations. Built workstation application to display this information.

Host Development

- Developed real-time security system used by all Travelers personal lines IMS transactions.
- Maintained and enhanced a host based DB2 annual incentive compensation system. Subsequently reproduced all needed functionality of the host system in a PC based system to eliminate host charges.

EXPERIENCE BY DATE

1999 – Present	Student	Computer Science, Internet Engineering
1985 – 1999	Associate Information Engineer	Travelers Group. <i>Hartford, CT</i>
1983 – 1985	Software Developer	Penta Systems International, <i>Baltimore, MD and Rindge, NH</i>

EDUCATION

Marlboro College Graduate Center, Brattleboro, VT

- MS, Internet Engineering, 2003 4.0 GPA

Charter Oak State College, New Britain, CT

- BS, Computer Science, 2001 3.76 GPA

Computer Processing Institute, East Hartford, CT

- Diploma, Business Computer Programming 4.0 GPA

HONORS/AWARDS

- Elected graduate school class commencement speaker
- Awarded 'Capstone Award' for master's thesis
- Awarded 'Highest Honors' for undergraduate work
- Awarded 'Charles Babbage Award' for excellence by CPI
